

***Package Insert**

When sending coins and/or precious metals to Gold Silver Vault, complete one Package Insert Form for each package you ship. Retain a copy to ensure you have a record for insurance purposes, and place a completed Form inside each package so Gold Silver Vault will credit the correct depository account when your package(s) arrive(s). Be sure to describe each type of product(s) you are sending in space provided below, and include an accurate count for each separate type under "Quantity." If your shipment contains more than one package, make additional copies of this Form, and number them as appropriate (1 of 3, 2 of 3, etc.) in the lower left hand corner - use one completed Form for each package.
